ADMINISTRATION DIRECTORATE REVIEW: TRENDS AND HIGHLIGHTS

Evaluation

In order to enhance the usefulness of the Trends and Highlights Course to you and future participants, a continuing process of evaluation is necessary. We ask your cooperation in assisting us in keeping the course responsive to the needs of the participants.

COURSE OBJECTIVE

The objective of the course is to update Deputy Director for Administration careerists' knowledge and understanding of current activities, problems and trends in the Directorate and its various offices.

- A. Please indicate on this numerical scale how well in your estimation, the course has met its objective. (Number 1 is the lowest, number 7 is the highest.)

- B. What was the most useful segment of the program to you in your present assignment? The least useful? Please describe how you see the program benefiting you.

Although I am not a DDA careerist, I feel that the course was of great benefit to me. I received information of which I had no previous knowledge, such as the new developments in the agency's highly technical fields. The most beneficial aspect of the course was that it provided a forum for personal questions. Every individual had certain personal concerns or thoughts in relation to his association with the CIA. I was able to sort out more fully (See Reverse Side) (over)

- C. Did you feel the session on the Administration Directorate/ Management & Advisory Group (AD/MAG) was beneficial? Why?

Yes, because until I heard the AD/MAG presentation I knew little about its objectives and the way it affects Agency policy.

- D. Other Comments: The records center tour and the Commo tour were both interesting.

(B) (Continued)

In my own mind certain questions I had in regard to motivation, professional ethics and moral principles in the intelligence field. I found that the course developed a more conscious awareness of the interrelationships between all the Directorates in the Agency.

The presentations I found most useful was the one given by [REDACTED] STATINTL. This was based mostly on theory. However, all the rest of the presentations which were factual were very helpful. The Security, Polygraph, and FOIA presentations were repetitive in some cases. The least useful presentation in my opinion was the one from Medical Services. It was too rushed and this I felt had a lot to do with the speaker.
